3. USSD app integrated with Africa's Talking API
- 4.Arduino health vitals monitoring app
- 5.Mpesa Miniapps development (RDL order Management System)
- 6.Facial Recognition for Attendance and entertainment spots

### **2016 - 2020 :**

Laikipia University Undergraduate in Bachelor of Science in Computer Science. Worked on several projects like my group project in third year. We were able to finish it with time and the project was ranked among the best by the University as it sought to stop rowdy people from destroying the stadium infrastructure. We titled it ; **A web project for management of stadiums in Kenya**. This project had the users pay for the stadium prior to the game via Mpesa then they book their seats. I have also done several projects on Android most of which I have stored in my github account. My final year project is a **web based project in blockchain for real estate management in Kenya**.

## **EDUCATION AND QUALIFICATIONS**

**2016 -2020** : Laikipia University Bsc Computer Science (Second class Honors(Upper Division) )
